MAKING EMERGENCY SUPPLEMENTAL APPROPRIATIONS AND RESCIS-
SIONS TO PRESERVE AND ENHANCE THE MILITARY READINESS OF
THE DEPARTMENT OF DEFENSE FOR THE FISCAL YEAR ENDING
SEPTEMBER 30, 1995, AND FOR OTHER PURPOSES

MARCH 2 (legislative day, FEBRUARY 22), 1995.—Ordered to be printed

Mr. HATFIELD, from the Committee on Appropriations,
submitted the following

REPORT

[To accompany H.R. 889]

The Committee on Appropriations to which was referred the bill (H.R. 889) making emergency supplemental appropriations and rescissions to preserve and enhance the military readiness of the Department of Defense for the fiscal year ending September 30, 1995, and for other purposes, having considered the same, reports favorably thereon with amendments, and an amendment to the title, and recommends that the bill as amended do pass.

The Committee recommends new budget authority of \$1,935,400,000 and rescissions and other changes of \$3,471,584,450 thereby reducing budget authority by \$1,536,184,450. The recommended amount is \$3,626,881,079 below the President's request and \$1,522,244,450 below the House allowance.

The President requested a total of \$2,538,700,000 in supplemental appropriations for the Department of Defense, all designated as emergency requirements under the Balance Budget and Deficit Control Act. These amounts were partially offset by legislative provisions.

The House provided the supplemental amount proposed by the President as emergency funding plus additional funding for the Department of Defense. These amounts were offset through reductions in defense and nondefense discretionary appropriations.

The Committee recommends a total of \$1,935,400,000 for supplemental appropriations, none with an emergency designation, and more than fully offset by savings within the Department of Defense. In addition, the Committee recommends a total of \$1,535,966,450 in rescissions of nondefense discretionary spending. These nondefense discretionary rescissions are applied to deficit reduction.

TITLE I
SUPPLEMENTAL APPROPRIATIONS
SUPPLEMENTAL REQUEST

The President requested emergency supplemental appropriations of \$2,538,700,000 to finance the Department of Defense's fiscal year 1995 operations, personnel, and procurement costs of unbudgeted contingency operations. The President also seeks approval of several general provisions. In particular, general provisions are proposed which would cancel unidentified appropriations amounting to \$703,000,000 and grant the Secretary of Defense authority to incur obligations in excess of appropriations in certain situations.

SUMMARY OF COMMITTEE RECOMMENDATIONS

The Committee recommends appropriations of \$1,935,400,000 to cover Department of Defense costs of unbudgeted contingencies in fiscal year 1995. This amount is \$603,300,000 less than that requested by the President. Also, in section 103, funding of \$28,297,000 is appropriated for transfer to the Coast Guard, consistent with the President's supplemental request. These funds will reimburse the Coast Guard for operating expenses associated with extraordinary Caribbean regional activities.

In order to offset the new budget authority and outlays provided by these supplemental appropriations, the Committee has proposed rescinding \$1,963,915,000 of available prior year funds. Section 106 of this bill provides for the rescission of \$1,857,915,000 from various Defense programs no longer required or which are of lower priority. Section 105 of this bill provides for an additional reduction of \$100,000,000 to the funding available for consulting services, studies and analyses, systems engineering and technical assistance, and technical, engineering and management support provided to the Department of Defense by defense federally funded research and development centers and other entities. Section 107 of this bill provides for the cancellation of \$150,000,000 authorized for the national security education trust fund and directs the orderly termination of this program. This change provides a rescission of \$6,000,000, as calculated by the Congressional Budget Office. Finally, since many of the military's fiscal year 1995 funding shortfalls are ameliorated by this supplemental, the Committee has recommended a reduction of \$250,000,000 to the Department's transfer authority in section 108 of the bill.

In its version of the fiscal year 1995 Defense supplemental appropriations bill, the House approves in full the President's request for pay, operations, and procurement funds. The House also provides an additional \$669,700,000 in emergency funds to eliminate certain pay, training, and maintenance funding shortfalls. The

Committee believes such funding shortfalls are best addressed through established reprogramming procedures or other non-emergency funding vehicles. Thus, no appropriations are recommended to finance funding shortfalls identified in the House bill.

The Committee's adjustments to the President's emergency supplemental request and a comparison with the House action on this request are summarized by account in the table below:

SERVICEWIDE ADJUSTMENTS

Reimbursement for Vigilant Warrior.—The Department of Defense recently received from Kuwait reimbursement for one-half of the costs of Operation Vigilant Warrior, an amount equal to roughly \$231,000,000. This reimbursement is not reflected in the supplemental funding request. The Committee recommends reductions totaling \$230,300,000 to the operation and maintenance funding requests to account for this reimbursement.

U.N. reimbursement for contingency operations.—The Department of Defense expects partial reimbursement for costs accruing to United States forces participating in U.N. peacekeeping operations in Somalia, Bosnia, and Haiti. This reimbursement also is not reflected in the supplemental request. The Committee reduces funding requested in the operation and maintenance accounts by \$66,800,000, in anticipation of these reimbursements from the United Nations.

Guard and Reserve mobilization.—Though the Department requests funds to cover the costs of activating Guard and Reserve units, it has failed to identify coincident offsets from the relevant

Guard and Reserve pay accounts. The Committee reserves judgment on these requests until such time as the Department can clarify this apparent oversight. Funding requested for the Army and Air Force personnel pay accounts is reduced by a total of \$68,200,000.

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

1995 appropriation to date	\$20,609,770,000
1995 supplemental estimate	69,300,000
House allowance	69,300,000
Committee recommendation	35,400,000

The Committee recommends appropriations of \$35,400,000 for military personnel, Army to fund imminent danger pay, family separation allowance, basic allowance for subsistence, and foreign duty pay for Army personnel deployed to contingency operations in Bosnia, southwest Asia, Korea, Haiti, and Cuba. This amount is \$33,900,00 less than was requested by the administration and recommended by the House.

MILITARY PERSONNEL, NAVY

1995 appropriation to date	\$17,569,137,000
1995 supplemental estimate	49,500,000
House allowance	49,500,000
Committee recommendation	49,500,000

The Committee recommends appropriations of \$49,500,000 for military personnel, Navy to fund imminent danger pay, family separation allowance, and permanent change of station costs for Navy personnel deployed to contingency operations in Bosnia, southwest Asia, Haiti, and Cuba. This amount is the same as requested and provided in the House bill.

MILITARY PERSONNEL, MARINE CORPS

1995 appropriation to date	\$5,774,871,000
1995 supplemental estimate	10,400,000
House allowance	10,400,000
Committee recommendation	10,400,000

The Committee recommends appropriations of \$10,400,000 for military personnel, Marine Corps to fund imminent danger pay, family separation allowance, basic allowance for subsistence, foreign duty pay, and permanent change of station costs for Marine Corps personnel deployed to contingency operations in Somalia, southwest Asia, Haiti, and Cuba. This amount is the same as requested and provided in the House bill.

MILITARY PERSONNEL, AIR FORCE

1995 appropriation to date	\$17,181,479,000
1995 supplemental estimate	71,700,000
House allowance	71,700,000
Committee recommendation	37,400,000

The Committee recommends appropriations of \$37,400,000 for military personnel, Air Force to fund imminent danger pay, family

separation allowance, basic allowance for subsistence, and foreign duty pay for Air Force personnel deployed to contingency operations in Bosnia, southwest Asia, Haiti, and Cuba. This amount is \$34,300,000 less than the amount requested by the administration and recommended by the House.

MILITARY PERSONNEL, NAVY RESERVE

1995 appropriation to date	\$1,401,809,000
1995 supplemental estimate	4,600,000
House allowance	4,600,000
Committee recommendation	4,600,000

The Committee recommends appropriations of \$4,600,000 for military personnel, Navy Reserve to fund salaries of Navy Reserve flightcrews and maintenance personnel in support of contingency operations in Bosnia, Korea, Haiti, and Cuba. This amount is the same as requested and provided in the House bill.

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

1995 appropriation to date	\$17,507,088,000
1995 supplemental estimate	958,600,000
House allowance	958,600,000
Committee recommendation	636,900,000

The Committee recommends appropriations of \$636,900,000 for operation and maintenance, Army to cover the costs of unplanned contingency operations. This amount is \$321,700,000 less than the amount requested by the administration and recommended by the House.

COMMITTEE ADJUSTMENTS

Haiti logistics support contract.—The President's request assumes the United Nations will take operational and financial responsibility for the Haiti contingency for the last half of this fiscal year. The Army, however, requests funding to cover the costs of a full fiscal year logistics support contract. Thus, the Army's request is not consistent with the administration's Haiti policy assumptions. Therefore, the Committee recommends a reduction of \$60,000,000 to the "Operation and maintenance, Army" account, an amount equal to one-half year's logistics support costs.

Readiness reinstatement.—The Army seeks \$89,000,000 to finance the costs of replenishing supply stocks depleted over the course of fiscal year 1994. The Congress provided the Army with additional readiness and supply funding in the Fiscal Year 1995 Department of Defense Appropriations Act that exceeds the Army's supply replenishment requirements. Moreover, the Committee believes that these costs are not incremental to the Department's ongoing contingency operations. Accordingly, the request for these funds is denied.

OPERATION AND MAINTENANCE, NAVY

1995 appropriation to date	\$21,054,470,000
1995 supplemental estimate	347,600,000
House allowance	347,600,000
Committee recommendation	284,100,000

The Committee recommends appropriations of \$284,100,000 for operation and maintenance, Navy to cover the costs of unplanned contingency operations. This amount is \$63,500,000 less than the amount requested by the administration and recommended by the House.

COMMITTEE ADJUSTMENTS

Cuba real property maintenance.—The Navy requests \$52,300,000 to repair roads and refurbish dining facilities and other permanent structures at the Guantanamo Naval Base in Cuba, the location of the Cuban refugee camp. Refurbishing facilities at this refugee camp should be deferred until a more definitive policy is approved by the administration and Congress. Moreover, these costs can be covered in the fiscal year 1996 Defense appropriations bill without jeopardizing the camp's operations. Accordingly, funding for this program is denied.

OPERATION AND MAINTENANCE, MARINE CORPS

1995 appropriation to date	\$1,988,215,000
1995 supplemental estimate	38,000,000
House allowance	38,000,000
Committee recommendation	27,700,000

The Committee recommends appropriations of \$27,700,000 for operation and maintenance, Marine Corps to cover the costs of unplanned contingency operations. This amount is \$10,300,000 less than the amount requested by the administration and recommended by the House.

OPERATION AND MAINTENANCE, AIR FORCE

1995 appropriation to date	\$18,763,427,000
1995 supplemental estimate	888,700,000
House allowance	888,700,000
Committee recommendation	785,800,000

The Committee recommends appropriations of \$785,800,000 for operation and maintenance, Air Force to cover the costs of unplanned contingency operations. This amount is \$102,900,000 less than the amount requested by the administration and recommended by the House.

OPERATION AND MAINTENANCE, DEFENSEWIDE

1995 appropriation to date	\$10,500,104,000
1995 supplemental estimate	43,200,000
House allowance	43,200,000
Committee recommendation	43,200,000

The Committee recommends appropriations of \$43,200,000 for operation and maintenance, defensewide to cover the costs of unplanned contingency operations. This amount is the same as requested and provided in the House bill.

OPERATION AND MAINTENANCE, NAVY RESERVE

1995 appropriation to date	\$831,219,000
1995 supplemental estimate	6,400,000
House allowance	6,400,000
Committee recommendation	6,400,000

The Committee recommends appropriations of \$6,400,000 for operation and maintenance, Navy Reserve to cover the costs of unplanned contingency operations. This amount is the same as requested and provided in the House bill.

PROCUREMENT

The Department has requested funds within this supplemental to replace equipment which has been lost, damaged, or transferred during peacekeeping efforts in Haiti, Rwanda, Jordan, Bosnia, and Iraq. The Committee does not recommend providing procurement funds within this supplemental. The Committee believes that Department can solve these equipment shortfalls within the normal reprogramming process or seek to have the Committee address these issues within the fiscal year 1996 appropriations bill.

OTHER PROCUREMENT, ARMY

1995 appropriation to date	\$2,673,148,000
1995 supplemental estimate	28,600,000
House allowance	28,600,000
Committee recommendation	

The Committee does not recommend providing the \$28,600,000 of other procurement funds requested and provided in the House bill.

OTHER PROCUREMENT, AIR FORCE

1995 appropriation to date	\$6,965,201,000
1995 supplemental estimate	8,100,000
House allowance	8,100,000
Committee recommendation	

The Committee does not recommend providing the \$8,100,000 of other procurement funds requested and provided in the House bill.

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

1995 appropriation to date	\$9,930,759,000
1995 supplemental estimate	14,000,000
House allowance	14,000,000
Committee recommendation	14,000,000

The Committee recommends appropriations of \$14,000,000 for the Defense Health Program to fund medical costs associated with contingency operations in Bosnia, southwest Asia, Haiti, and Cuba. This amount is the same as requested and provided in the House bill.

GENERAL PROVISIONS

SEC. 101. This general provision limits the availability of the funds provided in this supplemental to fiscal year 1995 unless expressly so provided.

SEC. 102. The Committee approves a general provision proposed in the President's request which allows the Secretary of Defense to extend separation pay benefits for families of civilian employees evacuated from Guantanamo Bay.

SEC. 103. A general provision is recommended which appropriates funds to the Department of Defense, for transfer to the Coast Guard, in the amount and for purposes consistent with the President's supplemental request for the Coast Guard.

SEC. 104. The Committee recommends a new general provision making a technical change to section 8106A of the Department of Defense Appropriations Act, 1995, to exclude those military members whose separation was approved on or before September 30, 1994, but whose date of separation occurred after that date.

SEC. 105. The Committee recommends a new general provision which modifies section 8054 of the Department of Defense Appropriations Act, 1995, reducing by an additional \$100,000,000 the funding available for consulting services, studies and analyses, systems engineering and technical assistance, and technical, engineering and management support provided to the Department of Defense by defense federally funded research and development centers and other entities.

SEC. 106. The Committee recommends a new general provision that provides for the rescission of funds identified by the Committee which are no longer required by the Department of Defense or which support lower priority programs. The following table provides a detailed breakout of the proposed rescissions:

Operation and maintenance, Navy:	
Project ELF	-\$14,300,000
Classified program reduction	-2,000,000

Manufacturing technology [ARPA]	- 30,000,000

The Committee has recommended a total funding reduction of \$175,000,000 allocated among the respective "Research, development, test, and evaluation" accounts to reduce fiscal year 1995 appropriations for science and technology [S&T] programs. The current level of investment in S&T exceeds the Defense Department's future ability to finance these programs. It is anticipated that future defense budget requests will project declining resources for these programs. The Committee directs that the recommended fiscal year 1995 reduction for each RDT&E account be applied on a pro-rata basis to each basic research, exploratory development, and advanced development program element funded by that account. Further, the Committee directs that no disproportionate reduction be made to any individual project within each program element.

The Committee-recommended rescissions to the classified programs are explained in the classified annex to this report.

SEC. 107. The Committee recommends a general provision providing for the orderly termination of the national security education trust fund and the rescission of funds no longer needed for the liquidation of prior or proposed commitments.

SEC. 108. The Committee recommends a general provision which reduces the transfer authority amount approved in the Fiscal Year 1995 Defense Appropriations Act by \$250,000,000.

SEC. 109. The Committee proposes a new provision which prohibits using Defense Department funds to support the Haiti contingency operation 60 days after the enactment of this act, unless the President submits a report detailing the full costs of this operation.

1995 rescission request	
House allowance	– 70,000,000
Committee recommendation	– 50,000,000

The Committee recommends a rescission of \$50,000,000 of the \$75,000,000 appropriated in Public Law 103–317 for the immigration emergency fund. This is a fund established for possible emergencies in border patrol and other enforcement activities, and for reimbursement to States and localities for assistance in meeting an immigration emergency, subject to Presidential declaration and congressional notification.

In the case that an emergency develops, \$25,000,000 will remain in the account, along with unobligated balances from previous years. According to the Justice Department, no funds have been spent out of this account in the last 5 years.

The Committee recommends a rescission of \$107,000,000 from the amounts provided for fiscal year 1995 for the Advanced Technology Program [ATP] under the National Institute of Standards and Technology, “Industrial technology services” appropriation account. The ATP was funded at \$431,000,000 for fiscal year 1995 and \$199,489,000 for fiscal year 1994.

The Committee recommends a rescission of \$20,000,000 of the \$408,024,000 appropriated in Public Law 103-317 for economic development assistance programs as authorized under the Public Works and Economic Development Act of 1965, as amended.

The Committee notes that the Department of Commerce has proposed to reprogram \$40,000,000 from this account in order to fund a new loan program. The Committee was unable to reach agreement in order to approve this reprogramming request, and recommends that one-half of the funds set aside for this purpose be rescinded.

Committee recommendation	- 100,000,000

The Committee recommends a rescission of \$100,000,000. This is the same as the House amount.

The Committee concurs with the House action in recommending a rescission of \$100,000,000 from funds appropriated for fiscal year 1995 and unobligated balances carried forward into fiscal year 1995 in the Defense Environmental Restoration and Waste Management Program. These reductions should be taken against low priority, noncritical work and those program activities which are not direct clean up activities.

Due to uncertainty over when the negotiations for the seventh replenishment will conclude, the Committee recommends that \$62,014,000, an advance payment for the seventh replenishment, be rescinded. This is the same amount as rescinded by the House.

The continuing negotiations revolve primarily around donor proposals for reform to improve policies at the African Development Bank as well as to improve the quality of the fund's loan portfolio. Until these issues are resolved and the seventh replenishment negotiations completed, these funds cannot be obligated and, therefore, the Committee recommends they be rescinded.

(RESCISSION)

1995 appropriation to date	\$802,000,000
1995 rescission request
House allowance
Committee recommendation	- 110,000,000

The Committee recommends a rescission of \$110,000,000 from funds appropriated for the Development Fund for Africa in fiscal years 1994 and 1995. The House had recommended a rescission of \$110,000,000 from assistance for the New Independent States of the former Soviet Union.

While the Committee supports the need for deficit reduction and offsets to the supplementals provided in this legislation, it believes that assistance to the New Independent States of the former Soviet Union is a higher United States foreign policy priority. The Committee also notes that, historically, the obligation of funds under the Development Fund for Africa, especially given the high levels of assistance provided to that account over the years, has been relatively slow.

House allowance	- 150,000,000
Committee recommendation	- 150,000,000

The Committee recommends a rescission of \$200,000,000 for the Clean Coal Technology Program. The rescission includes \$50,000,000 that is available for obligation in fiscal year 1996 and \$150,000,000 that is available in fiscal year 1997. A total of \$2,750,000,000 has been appropriated for the clean coal program. The Committee recommends this rescission with the expectation that some clean coal projects will be deemed economically infeasible or will be abandoned prior to completion. However, the Committee expects the Department of Energy to honor its commitments to those projects that are in process and are economically viable. This rescission is not directed against any particular project or round of the clean coal program.

TRAINING AND EMPLOYMENT SERVICES

(RESCISSION)

1995 appropriation to date	\$5,455,885,000
1995 rescission request	
House allowance	- 200,000,000
Committee recommendation	- 200,000,000

The Committee recommends a youth-training rescission of \$200,000,000 which is the same as the House allowance. The administration did not request a rescission for this account.

The rescission reduces the fiscal year 1995 appropriation for the Youth Job Training Program, authorized under title II-C of the Job Training Partnership Act [JTPA], from \$598,682,000 to \$398,682,000. This is a forward-funded program, with funds available for the period of July 1, 1995 through June 30, 1996.

This program is designed to provide employment and training services to economically disadvantaged youth, both in-school and

out-of-school, to assist in a successful transition from school to work. However, a Labor Department review in January 1995 concluded that short-term JTPA youth training does not appear to have significant positive impacts.

This action will provide for 212,000 participants in program year 1995. The President's fiscal 1996 budget request of \$288,979,000 would provide for 185,300 participants for the subsequent program year.

The Committee notes that another youth program, School-to-Work Opportunities Program, was more than doubled in fiscal year 1995, from \$100,000,000 to \$250,000,000.

DEPARTMENT OF EDUCATION

SCHOOL IMPROVEMENT PROGRAMS

(RESCISSION)

1995 appropriation to date	\$1,564,877,000
1995 rescission request	¹ - 103,084,000
House allowance	- 100,000,000
Committee recommendation	

¹ Rescission request reflects the update transmitted to Congress on February 22, 1995, to rescission proposal No. R95-4.

The Committee does not concur in the recommendation of the administration and the House to rescind appropriations under this head for title XII of the Elementary and Secondary Education Act, the Education Infrastructure Program. The Committee has not taken action on the remaining rescissions within school improvement programs proposed by the administration.

A recent General Accounting Office report estimates that one-third of our Nation's public schools are in need of extensive repair or total replacement of one or more buildings. These schools serve about 14 million of our Nation's school children. The Committee notes that State and local governments are unable to fully meet the demands of repairing our Nation's education infrastructure and accepts that the Federal Government has a role in this project. The Committee also shares the views expressed by the entire Congress when it passed the Education Infrastructure Act last year that "improving the quality of public elementary and secondary schools will help our Nation meet the national education goals." In addition, the Committee notes that the administration has recently proposed continued funding for the Education Infrastructure Program in fiscal years 1995 and 1996.

STUDENT FINANCIAL ASSISTANCE

(RESCISSION)

1994 appropriation to date	\$8,020,160,000
1995 rescission request	
House allowance	
Committee recommendation	- 100,000,000

The Committee recommends a rescission of \$100,000,000 from the Pell Grant Program. Neither the administration request nor the House bill recommended rescissions for this program. The administration estimates that by the end of fiscal year 1995, more

than \$100,000,000 will be available in surplus budget authority carried forward from prior years. These funds are available due to improvements in the economy which result in fewer students participating in the Pell Grant Program. The rescission of these funds will not adversely impact on Pell grant recipients or decrease the maximum Pell grant award.

1995 appropriation to date	\$2,087,489,000
1995 rescission request	
House allowance	
Committee recommendation	- 35,000,000

The Committee recommends the rescission of \$35,000,000 that was originally appropriated for the advanced automation system. In fiscal year 1995, \$409,500,000 was provided for this aviation en route system. Due to the program review by the Federal Aviation Administration and this reduction in scope of the original system plan, these funds are no longer necessary.

(HIGHWAY TRUST FUND)

(RESCISSION)

1995 appropriation to date	
1995 rescission request	
House allowance	
Committee recommendation	- \$133,340,000

The Committee recommends a total rescission of \$133,340,000. This is \$133,340,000 more than the administration's rescission request and the House allowance. The Committee is rescinding \$133,340,000 in unobligated contract authority from highway demonstration projects which received funding in Public Law 97-424 and Public Law 100-17, and which still remain unobligated as of February 10, 1995.

MISCELLANEOUS HIGHWAY DEMONSTRATION PROJECTS

(RESCISSION)

1995 appropriation to date	
1995 rescission request

Committee recommendation	– \$12,004,450

The Committee recommends the rescission of \$12,004,450, appropriated for four highway demonstration projects that received funding prior to fiscal year 1988 in Public Law 93–87, Public Law 98–8, Public Law 98–473, and Public Law 100–71. These are unobligated balances that are no longer necessary.

1995 rescission request	– 13,216,000
House allowance	– 13,126,000
Committee recommendation	– 6,608,000

The Committee recommends a rescission of \$6,608,000 in unobligated balances from the Local Rail Freight Assistance Program. This is \$6,608,000 less than the administration's rescission request and \$6,518,000 less than the House allowance. The Committee is rescinding one-half the amount requested by the President in order to reserve sufficient funding to cover the most meritorious grant applications received by the Federal Railroad Administration. Applicants for this limited funding must meet existing statutory criteria, as well as demonstrate outstanding project merit and the ability to provide substantial overmatching of Federal funds.

PENNSYLVANIA STATION REDEVELOPMENT PROJECT

(RESCISSION)

1995 appropriation to date	\$40,000,000
1995 rescission request	
House allowance	– 40,000,000
Committee recommendation	

The Committee does not concur with the House rescission of \$40,000,000, which was not included in the administration's rescission request. Congress appropriated \$40,000,000 for the Pennsylvania Station redevelopment project for fiscal year 1995, adding language in conference to make obligation of the funds contingent upon the enactment of an authorization. Barely 5 months have passed since then, with Congress out of session for 3 of those months. Obviously, there has been insufficient time for the project's sponsors to secure an authorization and the Committee believes that it would be unfair to deprive them of this opportunity. Moreover, the Committee notes that the \$10,000,000 appropriated for this project in fiscal year 1994 was fully and promptly obligated to advance the design process, perform the environmental analysis, and complete a structural steel analysis.

(RESCISSION)

1995 appropriation to date	\$400,000,000
1995 rescission request	
House allowance	- 400,000,000
Committee recommendation	

The Committee does not recommend concurrence with the House-passed rescission of funds appropriated for construction of new national wind tunnel facilities. The development of these facilities is critical to maintaining the competitive position of U.S. manufacturers of commercial transport aircraft into the future. At present, foreign aircraft manufacturing entities enjoy strong governmental support through such advanced developmental facilities as well as other financial and marketing advantages.

Current industry practices require access to such facilities to develop new generation transport aircraft, and such facilities only exist overseas. Domestic manufacturers, therefore, are at a competitive disadvantage which will ultimately lead to further erosion in market-share and job losses in the United States. The funding at issue is designed to initiate the development of a wind-tunnel complex which includes substantial industry cost sharing and cooperation. Along with previously funded critical ongoing studies into the design and structure of this complex, this \$400,000,000 appropriation represents an important initiative to preserve the Nation's positive balance-of-trade position in commercial aircraft sales and manufacturing.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAMS

ANNUAL CONTRIBUTIONS FOR ASSISTED HOUSING

(RESCISSION)

1995 appropriation to date	\$11,083,000,000
1995 rescission request	
House allowance	
Committee recommendation	- 400,000,000

The Committee recommends a rescission of \$400,000,000 from funds previously appropriated for public housing new construction. No funding for this purpose was proposed for rescission by the administration, and this item was not considered by the House. Subsequent to congressional action on appropriations measures during this past year, it became clear that discretionary funding for assisted housing programs would be insufficient to maintain existing

housing policies and all previously initiated federally subsidized housing units.

In December, the administration proposed to “reinvent” the Department of Housing and Urban Development, one component of which is a general expectation that public housing activities would devolve into block grants and tenant-based vouchers. The Committee has profound reservations over the as of yet undefined nature of this proposal, including concerns over the extent of residual bureaucratic redtape, the continued viability of the \$90,000,000,000 previous investment in affordable housing stock, and most significantly, the potential long-term cost of such a transition. It is clear, however, that in this context it makes little sense to add to the existing inventory of public housing units. Therefore, the Committee recommends the rescission of new public housing development funds totaling \$400,000,000.

The Committee intends to continue its comprehensive evaluation of the Department of Housing and Urban Development, its programs, and how necessary federally financed housing and community development activities can effectively and efficiently be sustained during this period of dramatically increasing constraints on discretionary spending. It is, therefore, critical that the Department of Housing and Urban Development begin to meaningfully provide to the Congress accurate data on its current activities and to correct glaring errors and omissions in its pending budget request, submitted by the President to the Congress on February 6, 1995. Unless these corrections are made, and the Department submits realistic legislative proposals which can be considered by the Congress, it will be very difficult for the legislative branch to proceed with the critical task of implementing structural and institutional reforms in the Nation’s housing and community development activities.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify each Committee amendment to the House bill "which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session."

Amounts recommended for appropriation in the accompanying bill that are not authorized under existing law are: Operation and maintenance, Army: \$636,900,000; operation and maintenance, Navy: \$284,100,000; operation and maintenance, Air Force: \$785,800,000; operation and maintenance, defensewide: \$43,200,000; operation and maintenance, Navy Reserve: \$6,400,000.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI OF THE
STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, the accompanying bill was ordered reported from the Committee, subject to amendment and subject to the subcommittee allocation, by recorded vote of 28-0, a quorum being present.

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE
 STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the Committee.”

Section 104, as recommended to the Senate, proposes the following change to section 8106A of the Department of Defense Appropriations Act, 1995 (Public Law 103-335):

SEC. 8106A. In the case of members who separate from active duty or full-time National Guard duty in a military department pursuant to a Special Separation Benefits program (10 U.S.C. 1174a) or a Voluntary Separation Incentive program (10 U.S.C. 1175) at any time after the enactment of this Act, the separation payments paid such members who are also paid any bonus provided for in chapter 5, title 37, United States Code, during the same years in which they separate shall be reduced (but in no event to an amount less than zero) by an amount equal to any such bonus: *Provided*, That any future bonus payments to which such members would otherwise be entitled are rescinded: *Provided further*, That this measure will not apply to members who separate during the last year of a bonus paid pursuant to chapter 5, title 37, United States Code: *Provided further*, That civilian employees of the Department of Defense are prohibited from receiving voluntary separation payments if such employees are rehired by any agency of the Federal Government within one hundred and eighty days of separating from the Department of Defense[: *Provided further*, That members who separate from active duty or full-time National Guard duty in a military department at any time after the enactment of this Act, are prohibited from receiving Special Separation Benefits program (10 U.S.C. 1174a) or Voluntary Separation Incentive program (10 U.S.C. 1175) payments if rehired in a civilian position by the Department of Defense within one hundred and eighty days of separating from active duty or full-time National Guard duty]: *Provided further*, That if, after September 30, 1994, a member of the Armed Forces (other than the Coast Guard) is approved for release from active duty or full-time National Guard duty

and that person subsequently becomes employed in a position of civilian employment in the Department of Defense within one hundred and eighty days after the release from active duty or full-time National Guard duty, then that person is not eligible for payments under a Special Separation Benefits program (under section 1174a of title 10, United States Code) or a Voluntary Separation Incentive program (under section 1175 of title 10, United States Code) by reason of the release from active duty or full-time National Guard duty, and the person shall reimburse the United States the total amount, if any, paid such person under the program before the employment begins.

Section 105, as recommended to the Senate, proposes the following change to subsection 8054(g) of the Department of Defense Appropriations Act, 1995 (Public Law 103-335):

(g) *【Notwithstanding any other provision of law, of the amounts available to the Department of Defense during fiscal year 1995, not more than \$1,252,650,000 may be obligated for financing activities of FFRDCs: Provided, That the total amount appropriated in title IV of this Act is hereby reduced by \$100,000,000 to reflect the funding ceiling contained in this subsection】 Notwithstanding any other provision of law, of the amounts available to the Department of Defense during fiscal year 1995, not more than \$1,252,650,000 may be obligated for financing activities of defense FFRDCs: Provided, That, in addition to any other reductions required by this section, the total amount appropriated in title IV of this Act is hereby reduced by \$200,000,000 to reflect the funding ceiling contained in this subsection and to reflect further reductions in amounts available to the Department of Defense to finance activities carried out by defense FFRDCs and other entities providing consulting services, studies and analyses, systems engineering and technical assistance, and technical, engineering and management support.*

Section 108, as recommended to the Senate, proposes the following change to subsection 8005 of the Department of Defense Appropriations Act, 1995 (Public Law 103-335):

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed **【\$2,000,000,000】** *\$1,750,000,000* of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided*, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated

and in no case where the item for which funds are requested has been denied by Congress: *Provided further*, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act.

BUDGETARY IMPACT

Section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344), as amended, requires that the report accompanying a bill providing new budget authority contain a statement detailing how that authority compares with the reports submitted under section 602 of the act for the most recently agreed to concurrent resolution on the budget for the fiscal year. All funds provided in this bill are either offset or are within the remaining limits of the Committee's allocations.
